General Notes:

- Responses were provided by product manufacturers during a telephone survey conducted by NRCA from Jan. 27- Feb. 1, 1999. All manufacturers surveyed were provided copies of their survey results for verification.
- Inclusion or exclusion of specific products solely is based on manufacturers' responses to the telephone survey.
- NRCA has not independently verified the manufacturers' representations of compliance of any of the products.
- Manufacturers' compliance with ASTM D 3462 and ICBO ES AC 127 may change over time. Users of this survey should verify compliance with specific product manufacturers and package labelings.
